

Using Lotus Notes for the Web (iNotes) on iPhone/iPad/iPod Touch

1. Open up the Safari Web browser and type the following URL:
<https://notes.cc.sunysb.edu/login.nsf>

2. Type in your **Lotus Notes ID** in the **Username** field and your **Lotus Notes Internet Password** in the **Password** field. Click **Access Server**. You will be prompted to authenticate twice. It is recommended you bookmark the second login screen for future access to iNotes, so you are not asked to log in twice on subsequent visits. The second login screen knows which mail server your data is stored on.

3. You should now be connected to Lotus iNotes.
