

Internet Explorer Settings Required for Downloading Files in SOLAR and PeopleSoft

Always Allow Popups

You must allow popups when you are working in PeopleSoft or SOLAR. Some functions, such as downloading rosters, will be blocked if you do not.

- Open **Internet Explorer**
- Click the **Tools** button
- Click **Pop-Up Blocker > Pop-Up Blocker Settings**

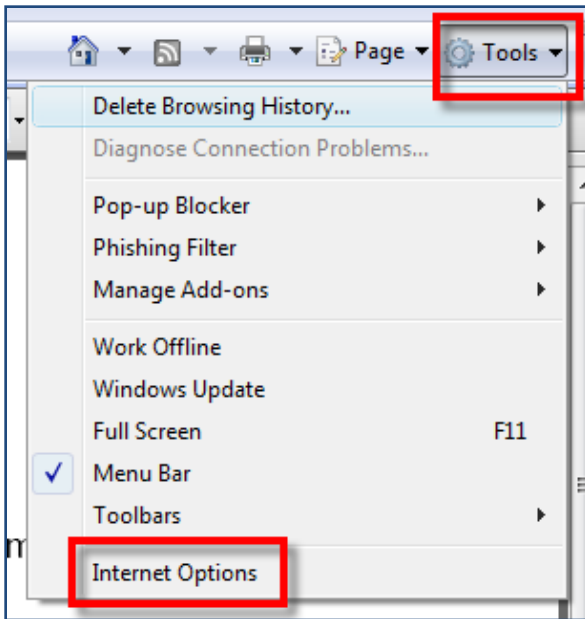

Type ***.cc.stonybrook.edu**
Click **Add**

Type ***.cc.sunysb.edu**
Click **Add**

Click **Close**

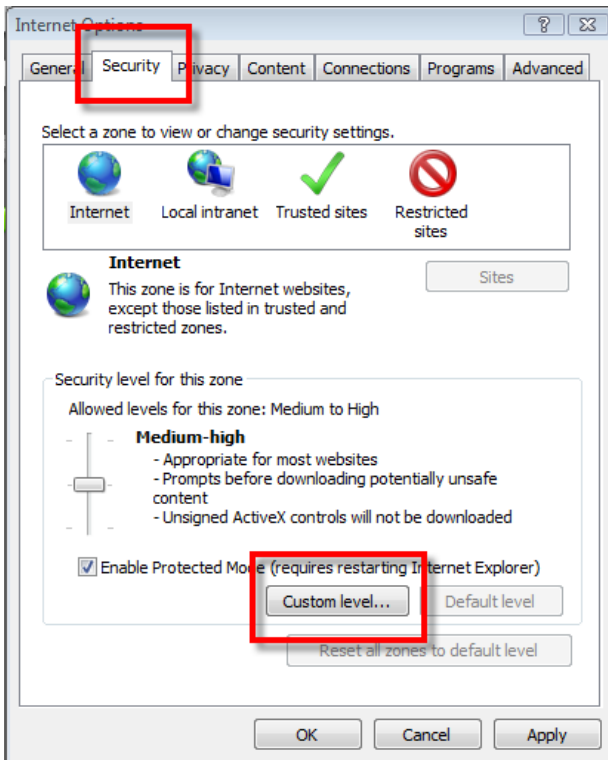

Customize Security Settings

In order to download a file from SOLAR or PeopleSoft you must enable “Automatic prompting for file downloads” in your Internet Security settings.

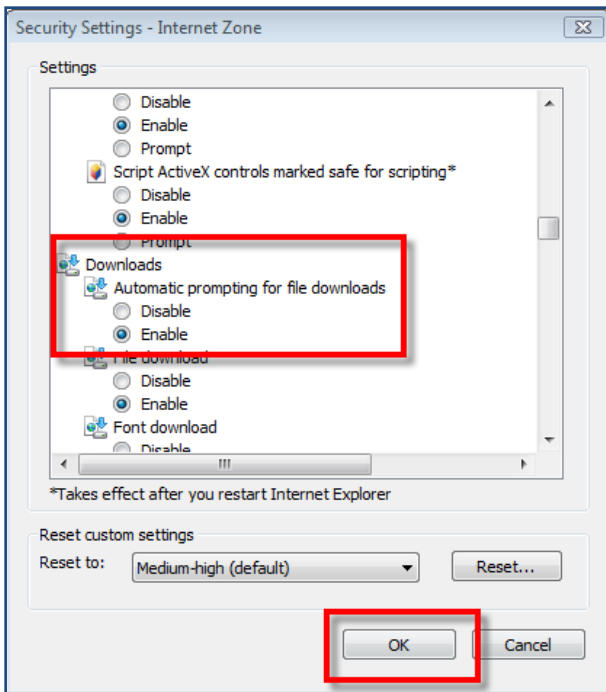

Click **Tools**

Select **Internet Options**

Click the **Security** tab

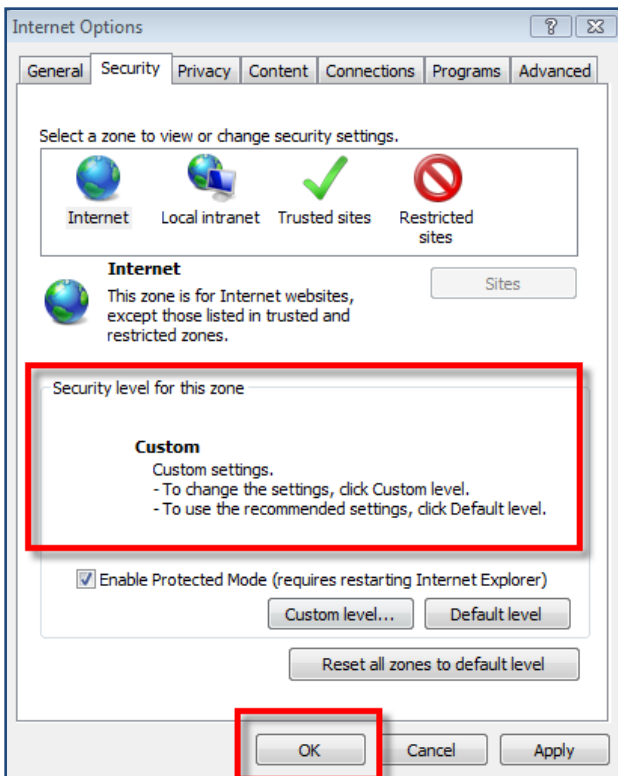

Click the **Custom Level** button

Scroll down to **Downloads**

Choose **Enable** under “Automatic prompting for file downloads”

Click **OK**

You’ll see here that you’ve changed your Internet Security level from “Medium High” to “Custom”

Click **OK** again to save these new settings
