In order to access SB’s Google Apps from a mobile device, you will have to first change your NetID password in the SOLAR System from a computer in one of the SINC Sites or from any computer on the University domain. Log into SOLAR and click on the NetID Maintenance link to change your NetID password. It takes 10-15 minutes for the new password to take effect.

Setting up Gmail on iOS

1. Go to the iPhone/iPad home screen.
2. Choose Settings
3. Choose Mail, Contacts, Calendars
4. Choose **Add Account…**

5. Choose **Microsoft Exchange**, not Gmail.
6. Enter the following information:

Email: firstname.lastname@stonybrook.edu or whatever your Stony Brook Google email address is. Some people may have a slight variation on the firstname.lastname@stonybrook.edu address scheme (e.g. firstname.middleinitial.lastname@stonybrook.edu or firstname.lastname.1@stonybrook.edu)

Username: firstname.lastname or whatever the first part of your Stony Brook Google email address is (e.g. firstname.middleinitial.lastname or firstname.lastname.1)

Password: NetID Password

Description: Stony Brook Gmail

7. Choose Next
8. When prompted, enter the server: m.google.com

9. Hit Next
10. Choose **Save**
