Manually Configuring the AirNet Client for Mac OS X 10.4x (Tiger)

**Step 1:** Click the Wi-Fi icon in the top-right menu bar and select **Turn AirPort On**.

**Step 2:** Click the Wi-Fi icon again and select **AirNet**.

**Step 3:** Click the Wi-Fi icon again and select **Open Internet Connections**.
Step 4: Select VPN (PPTP) on the top panel. In Server Address, type `ptp.airnet.stonybrook.edu`. Enter your NetID in the Account Name field and NetID Password in the Password field. Hit Connect.

Step 5: You should see “Connecting...Authenticating” and then a running time clock will appear. This means you have successfully connected to AirNet.
