Manually Configuring the AirNet Client for Windows Vista

Step 1: Click Start and select Control Panel.

Step 2: In your Control Panel, click Networking and Sharing Center.
Step 3: On the left panel, click **Set up a new connection or network**.

Step 4: Choose **Connect to a workplace**. Click **Next**.
Step 5: Choose Use my Internet connection (VPN).

Step 6: Type pptp.airnet.stonybrook.edu into Internet Address and AirNet VPN into Destination Name. Check “Don’t connect now; just set it up so I can connect later.” Hit Next.
Step 7: Enter your NetID in the User name field and your NetID Password in the Password field. Hit Create.

Step 8: Click the Network icon in the taskbar. Select Connect or disconnect.

Step 9: Select AirNet and click Connect to connect to AirNet Wireless.
Step 10: Make sure you are Connected to AirNet.

Step 11: Click AirNet VPN and click Connect.
