**Type-Ahead Addressing Displays Multiple Addresses for Your Contacts**

For people in your **Contacts** list, multiple email addresses are displayed when using type-ahead addressing. For instance, you have a work email and a personal email for one of your Contacts. You can choose which one to send it to.

- Begin typing the first and last name in the **To:, Cc: or Bcc:** field
- Click the right pointing arrow next to the person’s name to display all of the addresses that you have listed for them in your Contacts list
- Click an address to select it
